**Managed Online Backup  
Services**

**Mahaska Data Technologies, L.L.C.**

## Online Backup

Computers are the default storage medium for most businesses and virtually all home users. Because portable media is quickly becoming an outdated and expensive method for safeguarding important data it is essential to secure critical business assets and personal information with an easy-to-use, automated, online backup service. Our backup, archiving and recovery service is a powerful, yet simple to use solution and comes equipped with encryption backup tools previously available only to Fortune 500 companies. With an interface designed to be used by anyone in any size organization, this proven technology is user-friendly, reliable, ultra-secure and cost-effective.

### Unbeatable Security

Ensuring that no one but you can ever access your data is a top priority to us.

### Restoration 3X Faster

Files are available the moment you need them.

### Block-Level Backup

Once a file has been saved once, our software backs up only changes, down to the block level.

### Microsoft Exchange Support

We have developed Exchange Store specifically to manage backup, storage, and restoration of Exchange files.

### Retention and Archiving

Rest assured that our online backup is a compliance-ready digital archiving solution.

### Continuous Data Protection (CDP)

For documents that change rapidly and need continuous data protection, Set CDP to automatically send changes every 15 minutes.

### Flexible Scheduling

Welcome to complete scheduling flexibility. Each backup set can be set to run at any user-defined time, on any user-defined frequency. There are default settings, of course, but every aspect of the schedule is easily configurable.

**Easily backup, review and manage your online backup account**

**Quick access to frequently used tasks**

**Always know how much data you've backed up**

**See a quick summary of group revisions and future scheduled backups**

The screenshot shows a web-based interface for backup management. It includes a navigation bar with icons for My Account, Backup Sets, Restore, Delete, Activity, Diagnostics, and Preferences. A status bar at the top right indicates 'You are currently using 2.84 GB of 5.00 GB'. The main content area is divided into 'Status and Summary' and 'Scheduled Actions'. The 'Scheduled Actions' section lists several 'Next File backup (My Important Files)' tasks with dates and times ranging from 4/11/2009 2:00 AM to 4/17/2009 2:00 AM. A left sidebar contains links for account management and preferences.

## Technical Specifications

### Backup Schedule

Continuous Data Protection  
 Daily  
 Weekly  
 Monthly  
 Yearly  
 Multiple Schedules

### Encryption Algorithm
